

ABOVE GROUND SAFES (AG) Series

The AG SERIES are designed for commercial applications requiring high security from fire and theft.

Manufactured with a heavy gauge steel door and fitted with a one million variation combination lock or electronic digital lock and/or a six lever key lock, supported by a drill resistant steel plate cover over all locking areas.

Heavy 25 mm diameter high steel bolts lock in the front and rear edges of the door and a re-locking device is fitted for extra security. Inner and outer safe walls are reinforced with high barrier matrix. Standard sleeved bolt holes are provided in all OZ SAFE models for anchor mounting to walls or floors.

A full range of stock sizes are available and custom sizes can be manufactured to suit your design and budget.

	Height (mm)	Width (mm)	Depth (mm)
AG1 Ext	470	370	400
AG2 Ext	600	500	500

BULLY SAFES (BS) Series

Many homes, apartments and home units are not suitable for in-floor installation of safes and the low cost alternative is a free standing, above ground Bully safe for situations where basic security is adequate.

Featuring a 12mm plate heavy duty door with a secondary re-locking system device attached to safe guard against main lock dislodgement.

Fitted with an electronic digital combination lock or three wheel combination lock and/or a six lever keylock and supported by drill resistant, hardened steel plate.

Manufactured with heavy gauge steel inner and outer walls that are reinforced with high barrier matrix and supplied with standard sleeve bolt holes for securing to suitable floors.

	Height (mm)	Width (mm)	Depth (mm)
BS1	300	310	280
BS2	400	410	360
